□ ABOUT THE EVENT

The Annual Family Law Conference is currently in its eighth year and is held in Melbourne with the purpose of educating and discussing recent transformations in Family Law across Australia. One of the key focal points of the event is to educate the delegates on key developments in Family law over the past year. It is not only an opportunity to network amongst peers but also an occasion to learn from the experts in family law; thereby allowing participants to maintain a high level skill-set within the current Family Law environment.

This year's conference will offer an in-depth analysis on current topics of interest within the practice of Family Law such as: Revision of changes to the Family Law Act, shared parenting laws, family violence in family law, mediation and child support.
